

## Creation of IBM CLOUD SERVICES

Team ID	PNT2022TMID01873
Project Name	Smart waste management system for metropolitan cities

### SCREENSHOT OF CLOUD ACCOUNT CREATION:

The screenshot displays the IBM Cloud console interface. At the top, the header includes the IBM Cloud logo, a search bar, and navigation links for Catalog, Manage, and Gogul B's Account. The main content area shows the 'Internet of Things Platform-xv' resource, which is active. A sidebar on the left contains links for Manage, Plan, and Connections. The central panel features a large graphic of a microchip with data lines, followed by the heading 'Let's get started with IBM Watson IoT Platform'. Below this, a section titled 'Ready for the next level?' introduces the 'IBM Watson IoT Platform Journey' with three stages: Lite, Non-Production, and Production. Each stage includes a brief description and a list of features or limits. The 'Lite' stage is marked as completed with a checkmark. The 'Non-Production' and 'Production' stages are marked with circles. A 'Launch' button is visible next to the 'Let's get started' heading. At the bottom right, there is a button to 'Continue your journey on IBM Marketplace'.

IBM Watson IoT Platform Journey

☒ Lite

The Lite service plan provides a lightweight development environment to get you started with the connectivity capabilities of Watson IoT Platform.

- Free
- 200 MB data-transfer limit
- 500 application bindings limit
- 500 registered devices limit

☐ Non-Production

The Non-Production service plan is a full-featured, fully-integrated offering that enables you to explore Watson IoT Platform to see how the service can fit into your IoT environment.

- Starts at \$500 per month
- Capacity limit based on device type
- Optional Analytics Service and Blockchain Service add-ons

☐ Production

The Production service is a fully managed SaaS offering that enables you to manage and analyze enterprise IoT data.

- Includes IBM Service & Support
- Pricing based on number of devices per device type
- Optional Analytics Service and Blockchain Service add-ons
