

ASSIGNMENT 4

Assignment Date	23 Oct 2022
Student Name	Kalaiyarasi L
Student Roll Number	7376191EC177

Team ID : PNT2022TMID01873

Project : Smart Waste Management System

Task :

Write code and connections in wokwi for ultrasonic sensors. Whenever distance is less than 100 cms send “alert” to IBM cloud and display in device recent events. Upload document with wokwi share link and images of IBM Cloud.

CODE :

```

OUTPUT:

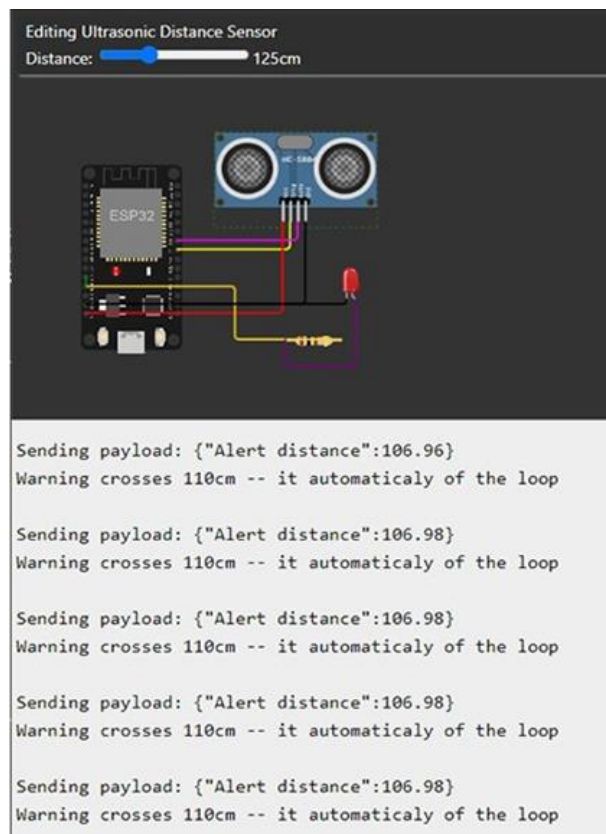

1) When distance under 100cm it will show normal distance

2) When distance cross 100cm it will show ALERT with warning message distance

3) when it cross above 110cm it totally move to off state once it reduce to 110 cm it again come to on state.
